SEATING 6 Adults	

[Limitless Options]

The 340X, currently is the smallest boat in the lineup of models, but that doesn't mean it's a small boat. The 340X runs extremely well in the open ocean and maneuvers effortlessly down the winding rivers in your favorite state. The cockpit offers an amazing amount of space for 6, along with an integrated storage locker, molded liner encompassing fender storage and space for safety gear and cooler. The 340X brings ease of maintenance back into the performance boating world. The 340X will run well over 100 mph, and offers 2.5 mpg economy at a 90 mph cruise. Mercury 400R outboards require little maintenance and have an available 5 year warranty package. The 340X is a true MTI. It is built in the same factory, by the same group of talented boat builders. It includes the same MTI factory lamination, paint, interior and rigging and is complete with factory testing.
